## Ballerina Birthday Party

The fun begins with a crafty creation to take home. Perhaps a magical wand for the fairy ballerina or a sparkling crown for the princess ballerina. Crafts for all other parties will vary depending on the birthday child's age and gender. Moving on into music and dancing; the party goers will do a ballet based warm up, basic ballet steps and across the floor exercises. The dancers will have fun using their imaginations and creativity with a variety of props. Let's take a break for cake! Cake and refreshments (provided by the host) and presents are next on the list of things to do. Finally, we'll come together to learn a dance from your little ones' favorite fairy tale ballet. Indeed, we will perform for all of the parents and grown-ups alike at the end of our time together.

This party is perfect for ages 3-10.

It will be a blast!!!
